

Cristina Saftoiu

Intern

Bavarian Office for Research Coordination between Bavaria and Alberta

Bavarian Research Alliance (BayFOR)

Cristina Saftoiu joined BayFOR in February 2011. Her responsibilities include: supporting the organization and implementation of joint initiatives in science and technology, organizing scientific collaboration and assisting with administrative tasks.

On behalf of the Bavarian State Chancellery, the Scientific Coordination Office Bavaria – Québec/Alberta/International within BayFOR promotes the exchange between individual scientists and their institutions in close cooperation with industry. It aims at increasing the presence of both regions abroad and helps to better position them in the international competition for research and innovation.

Prior to working for BayFor, Cristina has worked in various companies such as Papiertechnische Stiftung, Ludwig-Maximilians-University, Allianz SE (Headquarter) and Google GmbH Germany, gaining scientific and operational knowledge. Cristina has extensive experience in all facets of office and facility management.

Cristina earned her Diploma degree in Economics – Business Administration in 2003 in Bucharest. She has been living in Munich for 6 years and is currently studying political science at Ludwig-Maximilians-University. Besides her native language Romanian, Cristina is fluent in English, German and Italian.
